The Visual Psychology® Method for understanding organisational complexity and human complexity by *Enrico Cerni* **IX**

Acknowledgements **XIII**

Part 1 – The Visual Psychology® Method

1 The Visual Psychology® Method: Explaining complexity by drawing it 3
2 What the method comprises: How it works 17
3 One-to-one visual coaching: Conversations take shape 29
4 One-to-one visual coaching stories 43
5 Visual Psychology as a window into group dynamics 51
6 Visual Psychology applied to teams 65
7 Techniques for visual notes 71

Part 2 – The Cognitive Functions Engaged by the Visual Psychology® Method

8 Neurophysiology: The biology behind behaviour 85
9 Perception: Seeing beyond what meets the eye 97
10 Attention: What shapes our experience 107
11 Memory: How experiences become lasting traces 115
12 Learning: From information to transformation 125
13 Agency: Shaping transformation 133

Each chapter draws parallels between the cognitive functions examined and their equivalents in artificial intelligence systems, with contributions from Stefania Costantini, Full Professor of Artificial intelligence at the Department of Information Engineering and Computer Science at the University of L'Aquila (Italy).
